

A visit of the delegation of the Opplandsarchiver Adveling Maihaugen in Lillehammer

On November 27-29, 2017 representatives of Opplandsarchiver Aveling Maihaugen in Lillehammer visited Polish institutes as a part of the bilateral program. This visit was preceded by the delegation of Polish archivists on November 20-21, who acknowledged with Norway's archival organization. Our guests had an opportunity to familiarize themselves with the activities of the Central Archives of the Historical Records in Warsaw, the National Digital Archives and the State Archive in Warsaw. Norwegian archivists were invited to see our interiors where they have seen the most interesting archival collections and technical devices for digital works. They have been also particularly interested in the current projects realized by the State Archive in Warsaw. As a result of these meetings important contacts were maintained for the further exchanges of experience and discussion about methodological issues.
